

# How to Use Live Screen Monitoring

To view a live screen, chose the student and click '**Connect**'. Once connected, users will see the student's live screen and the open tabs.

**Screenshot** - Take screenshots of a student's browsing page or open tabs by clicking the camera icon.

**Send Message** - Engage in conversation with students by clicking the dialogue icon in the student's window. The teacher will see the student's response in the bottom right of the screen.

**Lockdown Browser** - Lockdown a student's browser

**Close Tab** - Remotely close tabs by clicking the 'x' button near the webpages in an individual student's monitoring window

**Open Tab** - Open the student's tab in your browser. The student's tab will open in a new tab on the instructor's browser.
